

VACANCY ANNOUNCEMENT

Job Summary

Position: Pharmacist (1 post)
Reports to: PI/Study Coordinator
Work station: Dar es Salaam
Apply by: January 25, 2019

Institute overview

Ifakara Health Institute (IHI) is a leading research organization in Africa with a strong track record in developing, testing and validating innovations for health. Driven by a core strategic mandate for research, training and services, the Institute's work now spans a wide spectrum, covering biomedical and ecological sciences, intervention studies, health-systems research and policy translation.

Position Summary

IHI is looking for a Pharmacist to fill a vacant position in a new project on "Calcium supplementation in pregnant women". She/he will be responsible for handling all matters regarding study drugs for the trial.

Duties and Responsibilities

- Participate in clinical research studies conducted by the Principal Investigator (PI) in support of activities that meet objectives of assigned research protocol, GCP, SOPs, GCLP, etc.
- Provide support to clinical and research activities to ensure protection, rights, safety, and well-being of the patients.
- Ensure participants' privacy and confidentiality are maintained.
- Prepare and label study regimen for distribution at study clinics.
- Ensure proper storage of the trial regimen at all times.
- Supervise study drug preparation.
- Receive and catalog returned regimen.
- Maintain regimen tracking logs.
- Train other staff on study drug handling.
- Carry out regular audits of study drug supplies.
- Serve as in-charge of proper destruction of empty bottles and extra regimen as per Tanzanian laws.
- Attend study training sessions and meetings.
- Undertake any other tasks that the supervisor shall reasonably require from time to time.

Qualification and Experience

- Bachelor of Pharmacy from a recognized institution, registered.
- Prior experience working in clinical trials will be an added advantage.

Skills and Competences

- Ability to use computer for data entry.
